

# Youth, Equity and Climate

Ella McCorry and Eamon Kurta

*We want the future of Wagga to excite and inspire us, and invite us to stay.*

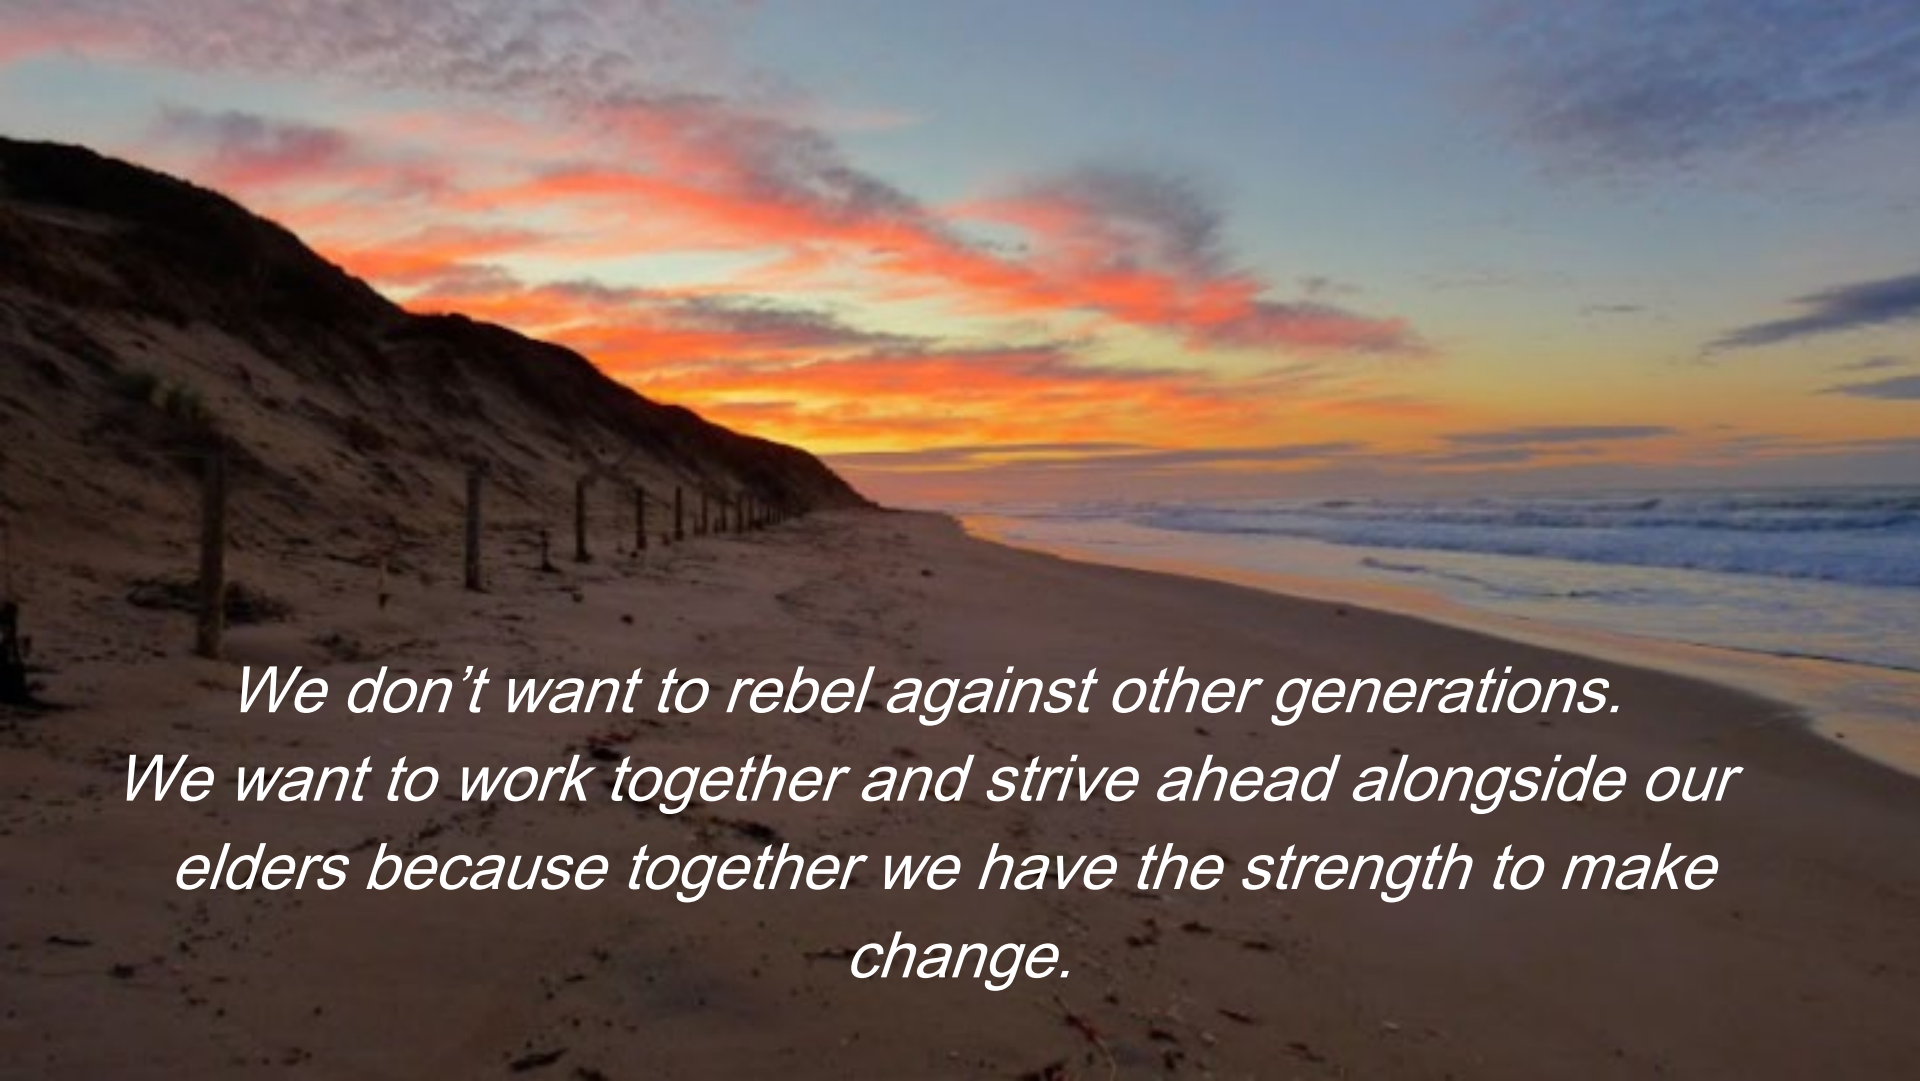

*The burden of  
climate change  
makes it  
difficult for us  
to dream about  
our future with  
optimism*

*Education provides  
hope through  
visions of  
sustainable cities  
where we have time  
to walk together,  
time to be with our  
loved ones, and live  
healthier lives*

*We don't want to rebel against other generations.  
We want to work together and strive ahead alongside our  
elders because together we have the strength to make  
change.*

*Speak out!  
And build  
bridges with  
those around  
us.*

*Images: Australian Museum*

*We must do this with inclusivity and compassion*

*Talk must lead  
to change,  
there must be  
action*

*Together,  
we have  
nothing to  
lose.*

*Together,  
we have  
everything  
to gain.*
